PAVILION MONITORING & STAND SECURITY

FIND OUT MORE IN YOUR CUSTOMER AREA

To order a security service, please refer to the “Useful Information” section of your Exhibitor area.

PAVILION MONITORING

General surveillance of the show is the responsibility of the organiser and is carried out in the very best conditions, yet this is an obligation of means and not of results.

The show's security company is aware of an increase in thefts and will ensure increased surveillance in the common areas.

Car parks are not monitored; objects of value inside vehicles must not be left out to ensure they do not attract interest.

STAND SURVEILLANCE

Exhibitors who choose to use special surveillance for their stands are asked to inform the organiser of this fact by providing a list of the people who will be intervening on the stand as well as the name and contact details of the chosen surveillance company.

Exhibitors are responsible for their own stands and must take all necessary precautions to ensure their equipment is protected and removed in the evening upon closing if no surveillance has been put in place.

Imported goods must be cleared by the Customs Service before being placed on the Exhibitor's stand.

Please note: Stand stockrooms are not secure premises.

THEFT PREVENTION

Due to an increase in theft noted during the assembly, opening and dismantling periods, some basic rules must be applied by the exhibitor:

- Avoid leaving invite boxes on exhibition furnishing units, tidy them away in a lockable unit,
- Do not leave your personal belongings out (wallets, handbags, bags, etc.),
- Do not leave mobile phones unattended,
- In the evening, tidy away any valuable items (computers, laptops, tablets) in a lockable unit or take them home with you,
- During the assembly and dismantling periods, one person must continuously be present at the stand.

This person serves as your only guarantee against theft.

PREAMBULE

The order of 1st August 2006 lays out the conditions for application of articles R 111-19 to R 111-9-3 and R 111-19-6 of the Building and Habitation Code concerning the access of handicapped people in establishments for public use and installations open to the public during their construction or creation.

Generally the pavilions, exhibition halls, and installations in exhibition centres meet the requirements of this order: accessibility, toilets, car parking, etc.

Furthermore, regarding installations open to the public during their creation, it is necessary to allow handicapped people access to stands, conference or meeting rooms, grandstands, or catering areas.

In the shows organised by COMEXPOSIUM, the Security Manager is responsible for ordering any measures required and carrying out inspections at shows.

The general and specific measures applicable to installations created at trade shows and exhibitions are given hereafter:

ACCESS TO SINGLE-LEVEL STANDS

Each stand, area open to the public, fitted with a floor higher than 2 cm must be accessible to People of Reduced Mobility (PRM).

One or several ramps, of a minimum width of 90 cm, will facilitate this access. Slopes will respect the following percentages:

- 4% slope without limit to the length of the passageway
- 5% slope on a length of less than 10 m
- 8% slope on a length of less than 2 m
- 10% slope on a length of less than 0.5 m

Clearance of a radius of 1.5 m will be left free for manoeuvring at each end of the ramp.

No floorboard allowed at GOURMET SELECTION 2023.

PATHWAYS

- Width of 1.4 m minimum.

ACCESS TO STANDS ON UPPER FLOORS

- Stands on upper floors are forbidden.

FITTING OF ROOMS OR AREAS RECEIVING SEATED MEMBERS OF THE PUBLIC (CONFERENCES, STANDS, GRANDSTAND, ETC.)

Areas reserved for wheelchair users will be provided.

These areas must be located outside of alleyways and corridors and close to exits. The number will be calculated enabling two places for the first 50 seats and one place per additional 50 seats.

WELCOME AND INFORMATION DESKS

Welcome and information desks must be accessible to people using a wheelchair.

- Height 80 cm, a gap of 30 cm depth on a height of 70 cm, enabling space for knees.

FIRE & PANIC RISK
PREVENTION REGULATIONS

1/5

1. GENERAL REMARKS

The safety regulations to prevent risk of fire and panic in establishments open to the public are determined by the Decree of 25 June 1980 (general provisions). The Decree of 18 November 1987 defines the special provisions applicable in exhibition pavilions. The text below highlights extracts of these regulations in order to make them easier to understand.

Any large project must be submitted for the approval of the Security Officer assigned to the trade show. All plans and technical information must be sent for this purpose to the organiser at least one month before the show opens.

During the assembly period, the Safety Officer oversees the application of the safety measures mentioned above. All further information concerning fire safety can be obtained from:

Cabinet RAILLARD

Pathways will be horizontal and will not have steps or steeper inclines than decreed by law:

- minimum width = 0.90m,
- 33% bevel threshold strip, if floor has a rise of < 4cm,
- 4% inclinations, whatever the length of pathway,
- 5% inclinations over lengths of < 10m,
- 10% inclinations over lengths of < 0.50m.

Reception desks must be usable by people in wheelchairs (maximum height of 0.80m, with a gap of 30cm to make room for knees at a height of 0.70m).

The company is required to place cloakroom facilities (if necessary) at their staff's disposal, in application of current legal texts, available for consultation from the Organizer.

There will be no canteen for meals.

SITE CONSTRAINTS

The temporary occupation of this site implies compliance with the standards and conditions (Times of access, parking, speed etc....) defined by the regulations in force in this enclosure and its surroundings. These regulatory texts, as well as the site specifications, can be consulted by contacting the Organiser.

SPECIAL MEASURES

At the request of the Organiser and of the HSS Coordinator, the company has the duty to complement or improve the hygiene and cleaning protection measures already carried out, if they are judged to be insufficient. The free movement (of men and lifting equipment) around the stands must be possible at all times of the assembly and dismantling periods. To ensure this, plans indicating the authorised traffic movement and storage areas will be drawn up, displayed at the hall entrance and distributed to handlers and fork-lift truck drivers.

MEASURES TAKEN TO RESTRICT ACCESS ONLY TO PERSONS WORKING ON SITE

Access to the show site is only possible for persons and vehicles carrying authorization from the Organiser.

Notices prohibiting access to the public stating the essential safety regulations to be observed on the site will be posted up at the halls entrances. These accesses will be guarded. Visits to the worksite by persons other than the authorized workers (children, friends, family, pets...) are strictly forbidden.

WORKFORCE

In conformity with current regulations, and at its own responsibility, the company must ensure that every worker arriving on the site has attended safety-training sessions (presentation of special risks, conditions of traffic movements outside and inside the site, safety conditions applicable when carrying out work, special safety instructions, explanation of the operating method, follow-up of preventive measures that have been defined for each task).

The company must hold obligatory legal documents at the site, as they may be asked for by administrative inspection services.

All employers based outside France with the intention of providing services in France must submit a prior declaration of posting of its workers to the work inspectorate branch of the place where the service is to be provided, before the posting gets underway.

USING FOREIGN SERVICE PROVIDERS

1/2

MANDATORY

Exhibitors and stand installers may use non-French service providers. They will be informed by the organiser of French regulations regarding the use of a foreign workforce on French territory during the show's assembly and dismantling periods, and reminds them that it is very important to make the necessary declarations.

1 - PRELIMINARY DECLARATION OF SECONDMENT

Whatever their nationality, non-French service providers must complete a preliminary declaration of secondment (*déclaration préalable de détachement*) from the Ministry of Labour: online "[SIPSI](#)"

It is important to underline that French law, and in particular provisions regarding working hours and the minimum wage, applies to foreign workers as of the first day of their employment on French territory, however long they are working in France for.

According to law, no employee can therefore work in France:

- For more than 48 hours a week: please note that a week starts at midnight (12:00 am) on Monday and ends at midnight on Sunday (12:00pm)
- For more than 10 hours a day
- For more than 6 hours without a break (of at least 20 minutes)
- For more than 6 days in a single week.

All employees working on French territory must receive a monthly gross salary demanded by the Ministry of Labour.
